Well, having returned back from the Convention and an additional holiday in Asia, I have had time to reflect on the events and views experienced whilst in India. In early 2011 you will have the opportunity to read about these experiences from a variety of members who attended. It certainly was a worthwhile trip from both a professional and cultural point of view and I would urge you to consider attending the next Convention in Singapore and Kuala Lumpur. Many thanks to Tony Rowbotham for looking after the NEWS in my absence.

It is planned that in 2011, further additional changes will take place that will enhance and improve this publication even further. As always, the editorial team are pleased to receive views and ideas from the membership so that we can continue to provide a modern professional magazine. We must also remember that we are a global Institution and therefore we must ensure that we represent the Institution, the membership and the signalling and telecommunications industry globally! We can only achieve this with regular contributions of technical papers, articles, pictures and feedback from the members and the industry. A big thank you to all those who do provide these on a regular basis. We can always accommodate more!

The editorial team of the IRSE NEWS wish you all a Merry Christmas and a prosperous New Year. Enjoy!

*The Editor*
